Front-End Developer with proven ability to design and deploy full-stack applications, including social media, project management, and API-driven platforms. Skilled in React, Next.js, Tailwind-CSS, and Firebase, with strong problem-solving skills and a focus on delivering responsive, scalable, and user-friendly solutions. Seeking a front-end role where I can leverage my hands-on project experience, adapt quickly to new technologies, and contribute to impactful, real-world products.

Featured Project

BUG – Social Media Web App

`ReactJs` `TailwindCss` `Firebase` `ReduxToolkit` `Motion` `ReactRouter`
